Buddhist Vajrayana Charity Funds Association  
P.O. Box  
Yuen Long Post Office,  
N.T, Hong Kong

Dear Friends from Buddhist Vajrayana Charity Funds Association,

We are family.

Each year, Mother's Choice carefully selects a theme that embodies our work and gives us the inspiration to carry us throughout the year. This past year presented new and very real challenges for our city and made us realize that our work here in Hong Kong is needed more than ever. Even as the stories of the vulnerable children and young girls that we serve become more complex and challenging, we can still have HOPE ... because of members in our community like you who walk alongside us and support us so generously with their time, talent and resources. That is why our theme this year is dedicated to YOU, "**Our Hong Kong Family**".

Our vision of every child in a loving family is radical. It is a vision where our culture and our city are completely transformed because every child is thriving in their family; every family is embraced and connected in community; and every person in Hong Kong knows they have a role to play in giving hope and changing life stories. We believe that when children and young people grow up in a safe, permanent, loving family – it changes their lives, the generations that come from them, and the whole community around them. Because "**family**" is the most powerful agent of change.

Thank you for being a special part of our Mother's Choice family.

With deepest gratitude,

Alia Eyres  
CEO
